

ShopWala Exchange Policy

This guide explains the exchange period, variant changes, price adjustments, and products that are not eligible for exchange.

Exchange period and eligibility

- Eligible products can be exchanged within 15 calendar days from the date of delivery.
- The product must be unused and should be returned with its original packaging, tags, accessories, and manuals.
- An exchange can be completed only when the requested replacement variant is available in stock.

Size and color exchanges

- Eligible fashion products may be exchanged for another size or color of the same product when the requested variant is in stock.
- If the required size or color is unavailable, the customer can use the standard return process instead.

Price adjustments during an exchange

- If the replacement variant has a higher price, the customer must pay the difference before the replacement is dispatched.
- If the replacement variant costs less, ShopWala refunds the price difference to the original payment method after the exchange has been processed.

Products not eligible for exchange

- Final Sale items, personalized products, and opened hygiene products are not eligible for exchange unless the product is defective.
- Products that have been used, washed, altered, or damaged by the customer after delivery cannot be exchanged.

Exchange support

- Customers should keep the original order information available when requesting an exchange.
- The availability of the requested replacement variant is checked before the exchange is approved.
