

ShopWala Payments & Refund Policy

This guide explains available payment methods, refund processing timelines, refund methods, and payment-failure support.

Available payment methods

- ShopWala supports major credit cards, debit cards, UPI, net banking, and supported digital wallets.
- Cash on Delivery may be available for selected products and eligible delivery locations. Availability is displayed during checkout.
- For prepaid purchases, an order is confirmed only after the payment gateway reports a successful payment. Cash on Delivery orders follow the applicable COD confirmation process.

Refund processing timeline

- Once ShopWala approves a refund, the refund is normally initiated within 2 business days.
- After ShopWala initiates the refund, banks and payment providers generally require another 5 to 7 business days to credit the amount to the original payment method.
- The final amount-crediting time may therefore be longer than ShopWala's own refund-processing period.

How refunds are issued

- For prepaid orders, refunds are normally sent back to the original payment method whenever the payment provider supports it.
- For eligible Cash on Delivery refunds, ShopWala may request bank-account or UPI information through a secure refund process.
- Shipping or convenience charges are generally not refunded for change-of-mind returns unless the relevant product page specifically provides otherwise.

Payment failures

- If the customer's account is debited but the order is not confirmed, the payment provider will usually reverse the transaction automatically.
- If the amount has not been returned within 7 business days, the customer should contact ShopWala support and provide the payment reference or transaction details.
- Customers should avoid making repeated payments for the same order until the original transaction status has been checked.

Refund support

- When contacting ShopWala about a refund, customers should keep their order number or payment reference available.
- Refund status may depend on both ShopWala's processing time and the customer's bank or payment provider.
