

ShopWala Shipping & Delivery Policy

This guide explains order dispatch timelines, delivery estimates, shipping fees, tracking, and delayed deliveries.

Dispatch and delivery estimates

- Orders are generally dispatched within 1 business day after payment has been confirmed.
- Standard delivery usually takes 3 to 5 business days after the order is dispatched.
- Express delivery usually takes 1 to 2 business days after dispatch when express service is available for the destination.
- Deliveries to remote or rural locations may require up to 2 additional business days.

Shipping charges

- Standard shipping is free for prepaid orders with a merchandise value of INR 999 or more.
- Orders below INR 999 may have a shipping fee, which is displayed during checkout before the order is placed.
- Express delivery fees are calculated separately and may apply even when the order qualifies for free standard shipping.

Order tracking

- After an order has been dispatched, ShopWala sends a tracking link through email or SMS.
- New tracking information may take several hours to become visible after the shipping label has been generated.
- Customers should use the tracking link to view the latest available shipment updates.

Delivery delays

- Delivery estimates are approximate and are not guaranteed dates.
- Shipments can be delayed because of severe weather, public holidays, courier-service disruptions, or incorrect or incomplete address information.
- If shipment tracking has not changed for 3 business days, the customer should contact ShopWala support and provide the order number.

Delivery support

- When contacting ShopWala about a delayed shipment, customers should keep their order number available.
- Support can use the order number to review the shipment status and provide the available delivery information.
